## MARIANDINA TESTIMONIALS

### DIABETES

I am 37 years old and was diagnosed with diabetes about two and a half years ago and was given insulin which I took for a few months. Then I was given Mariandina which I also started to take. After 6 months, I went for my check up and was told that my blood sugar was ok. This was surprising since most people stay on insulin for a long time. I take Mariandina every day now.

### STROKE / RECTAL BLEEDING

I had a stroke a few years ago and recently started bleeding from my rectum. After hearing about Mariandina herbal treatment, I decided to try Mariandina A and J. Within 3 to 4 days, the bleeding had stopped and has not returned since. Not only did Mariandina stop the bleeding but Mariandina has helped me feel a lot better within myself and I honestly believe that it still continues to do so. **Paul Brixton Hill, London**

### HIGH BLOOD PRESSURE (AGED 26)

I am on Kidney Dialysis 3 times a week at St Thomas hospital in London. I was taking blood pressure tablets on a daily basis as my blood pressure was high. I took 3 different types every morning and at night if I missed one single dose, my blood pressure would shoot up. Mariandina has lowered my blood pressure to a reasonable level. I take Mariandina A and Mariandina J 3 times a day.

### LUPUS

I live in Birmingham and have 3 children. For the past year I was unable to even pick up my children because of the effects of Lupus. I then heard about Mariandina and my husband decided that we should give it a try. Six months later I was able to do most of the things that I hadn't been able to do including picking up and cradling my children. I was so grateful that we took the whole family to a conference to meet and Thank Prof Ssali the inventor. **Veronica Birmingham**

### CERVICAL CANCER

I was diagnosed with Cervical cancer in 1986 at the New Cross hospital in the West Midlands. I have had regular biopsies and each time it was confirmed that I had Cervical Cancer in the early stages. In 1999, I was advised to have a hysterectomy because the cancer could not be contained any more. I refused because I wanted to have a baby. In 1999, I heard about the Mariandina Herbal supplements and started to take them. Since then, my general health improved and I suffered no side effects. I returned to my doctors in March 2000 for a biopsy which was negative so they couldn't detect any cancer. The biopsy was repeated 3 times and all proved negative. In November 2000 I conceived and now I am 5 months pregnant. I have taken no other medication other than Mariandina. Regular scans show that I am fine and my baby is fine. **Sophie North London**

### PROSTATE GLAND - SOURCE - ACCRA, GHANA

My doctor after a scan in a private clinic in Kumasi told me my prostate gland had enlarged and I was put on medication for 4 months. There was no improvement after the 4 months and I was told of Mariandina. I started with A and J and after a month when I went for review there was a marked reduction in size. Upon continuous use the doctor has declared me free.

### BREAST CANCER - Source - Accra, Ghana

A lump was removed from my breast in 1998 at the Teaching Hospital in Kumasi and after radiotherapy, I was declared fit. In 2002 another lump started forming and after tests it was shown to be cancerous. I heard of Mariandina in June 2003. After taking the combination of Mariandina A, B and J for 2 months my doctor reported of a reduction in the size and after another 3 months it is nowhere to be seen.

### CHRIS - SOURCE - BOTSWANA

I am a gentleman of 32 yrs residing in Boteti District who has been bed ridden for almost 6 months with swollen feet and sores all over my mouth down to the throat and loss of appetite. I was helpless crying through the night. I was approached with mariandina A,B & J, to take 2 of each type three times a day with a supply of a month. Magically my first day I slept so deeply like a child sweating over night and on the second day I was even able to swallow soft porridge and before the end of the week I was able to stand up and bask outside without pain on my legs. Thanks for Mariandina products.

### MR. DAVID NSIMBE - UGANDA - MARIANDINA CLINIC

Mr. David Nsimbe of Kampala in Uganda had been prone to recurrent pains in one of his knee joints caused by an old sports injury that he sustained years before. Since his start on a daily regime of Mariandina pills, the knee has mended remarkably well. The fluid that used to collect in the knee joint every few months, stopped and mobility is now unrestricted within less than four months. He can now enjoy his football like he used to do before the injury.

## QUESTIONS AND ANSWERS ON MARIANDINA:

### How safe is Mariandina?

Mariandina is safe because the ingredients are made from whole plant based natural nutrients as described with no side effects. Mariandina works in harmony with body by providing natural spare parts to replace lost nutrients and damaged cells and tissues. Large doses are well tolerated especially if taken after meals. Mariandina can be taken along side any medication you are taking. Mariandina will speed up the body's recovery and boost the healing process.

### How does it work?

Mariandina mops up impurities produced in the body called free radicals which promote cell damage. Mariandina works by providing the cells with vitamins and minerals required for cells to function properly. Without these nutrients the cells would be destroyed by toxic substances that occur in the body.

### Do I need a medical prescription to get Mariandina?

There is no need for a medical prescription to get Mariandina.

### Is Mariandina safe to take during pregnancy?

Pregnant mothers using Mariandina A and B will often give birth to healthier babies, nourishing the mother and baby during pregnancy and if they take Mariandina regularly through the pregnancy and after, the baby will continue getting the nutritional additive through breast milk. (Note: Mariandina J should not be taken during pregnancy)

### What sort of diet do you recommend?

You are advised to eat a lot of green vegetables and plenty of fruits. Beans, peas and lentils are also recommended. Seeds such as Sunflower seed, Sesame seed, pumpkin seed, Hemp seed and Linseed are a rich source of nutrients and help to nourish the body. High nutrient dense foods of vegetable origin such as broccoli, spinach, cabbage, avocado, carrots and others have beneficial medicinal properties.

### How to take Mariandina?

Mariandina should be taken after your meal or after eating something and not on an empty stomach. If difficulty occurs in swallowing the tablets, then dissolve them in warm water or crush in blender or bullet after removing white sachet, if you want to make sure your body remains in optimum condition then continue taking a maintenance dose of one or two tablets daily. Drink plenty of water. 1.5 to 2 litres daily is recommended. This helps the kidneys to clear out any toxins from the blood. For those using contraceptive pills, smokers and alcoholics, the use of Mariandina is recommended in higher dosage because most of the nutrients are used to clear the backlog of impurities and toxins stored in the body fat. In cases of high blood pressure and diabetes, it is advisable to take Mariandina A, B and J together with the anti hypertensive drugs or insulin from your own doctor until the blood pressure or diabetes is controlled. This may take over six months. During this period the Mariandina helps the body to clear itself of cholesterol and open up coronary heart blood vessels and improve brain circulation. This reduces the risk of stroke, heart attack and Kidney failure. Patients diagnosed with Multiple Sclerosis, Skin, kidney and Intestinal disorders may be treated as recommended in the health dosage guide.
